

UNIFORM POLICY

St. Francis Xavier School Community values its identity. Student dress standards should promote a positive image of the school within the community and encourage students to uphold and enhance that image. It is by, and through, the maintenance of dress standards that the school community can express a sense of belonging for its students.

GENERAL PRINCIPLES

1. Student dress standards will: -
 - * be sensitive to the maturity of students, gender, disability, religious and cultural beliefs and socio-economic circumstances:
 - * maximise access to, and participation in, all educational experiences for both male and female students:
 - * ensure health and safety according to relevant legislation and policy:
 - * minimise harassment attributed to, and accentuated by, dress.
2. Approaches which encourage and reward students for upholding dress standards are worthwhile, and these should reflect the broader school philosophy, especially aspects which relate to student welfare.
3. All members of the school community have responsibility for ensuring that dress standards are maintained.
